15 Nashoba Drive
Rochester, NH 03867

Subject: Barrington - Public Water System: Emerald Acres (EPA #0153060)

Dear Mr. Toy:

Based on a recent review of the file for Emerald Acres, the Department of Environmental Services (DES) has determined that the **Compliance Gross Alpha** result levels have been below the maximum contaminant level of **15 pCi/L** for over a year. Therefore, DES hereby closes Letter of Deficiency #WSEB 04-070, dated May 14, 2004 (the "LOD"). As such, the actions requested in the LOD are not enforceable at this time. Please note, this letter does not release the system from other pending enforcement actions that are still in effect and enforceable.

Based on the running annual average of the following contaminants, your schedule has been modified as follows:

SITE: #501 Tap in PH/After Pressure Tank/Blend 001 and 002

Contaminant	RAA	Next Sampling Quarter/Year
Compliance gross alpha	7.94 pCi/L	Quarter 2/ 2009
Uranium	6.42 ug/L	Quarter 2/ 2012
Radium 226 & Radium 228	2.425 pCi/L	Quarter 2/ 2012

If you have any questions, please contact me at (603) 271-0659 or by e-mail at emcnaughten@des.state.nh.us.

Sincerely,

Betsey **McNaughten**
